We regret that an error was made in “A novel inhibitor of MDM2 oncogene blocks metastasis of hepatocellular carcinoma and overcomes chemoresistance” (Genes Dis 2019 Dec; 694: 419–430). In Fig. 1C of the original manuscript, the right panel (showing the migration ability of the MHCCLM3

cells) was erroneously duplicated with the left panel (showing the migration ability of the Huh7 cells) when the figures were assembled. We have now checked the original data and request to replace the right panel with the correct data for MHCCLM3 cells. The corrected Fig. 1C is as follows:
